WHO ARE WE?

SkillsUSA Virginia is the Career and Technical Education (CTE) organization for students enrolled in Trade and Industrial occupations in Virginia’s high schools and college/post-secondary institutions. The organization connects the classroom to the workplace in an effort to close the “SKILLS GAP.”

SkillsUSA Virginia is planning an event this fall to recognize the students for their accomplishments in the classroom. Typically, these are face-to-face activities that occur in the first semester, this year we will have a virtual “Job Skill Demonstration” showcase, where students can have a chance to show their related accomplishments. The purpose of the event is to evaluate each student’s ability to demonstrate and explain a technical skill used in the occupational area for which they are enrolled. We hope that you will join us in investing in…

TOMORROW’S WORKFORCE.

How to get involved

SkillsUSA Virginia will place your logo on promotion materials including social media platforms and website to keep your name in front of our students as a demonstration of your support of their training.

(Please see the next pages for specifics on how you can direct your support)
*SkillsUSA will not be charging an entry fee to our student members in these difficult times but we are seeking donations from individuals, companies, and/or organizations to take care of the operational costs.

Please circle the virtual competition that you want to show your investment for our future workforce!
