

Number of Eligible Contestants – SLC 2023

contestants in each skill contest—one from each district. However, due to a limited number of programs statewide in some trade areas, the SkillsUSA Virginia Board of Directors has recommended that more than one contestant per district be allowed to compete in certain contests. The number of contestants allowed is listed below and pertains only to the high school division. The college/postsecondary division may have one contestant per district per contest. X = Terminates at the state level

Note: Some contests, as noted below, will require the advisor to send intent to enter form to the SkillsUSA Virginia state advisor before December 1. Any special contest not requested will not be held at state.

SkillsUSA Virginia: Number Eligible 2023 Updated 1/15/2023
